c/o Postmaster, Norfolk, Virginia

Dear Jerry:

I was pleased to receive your note of 24 April indicating the interest of [redacted] in coming to work for us.

STAT

We have already put him through our initial processing mill here and have determined that we can probably use him in what should be a very interesting spot. The remaining details of processing will probably, however, be fairly lengthy as we cannot make a final determination without a complete security check on him. We do not, of course, anticipate any difficulty in this direction but it will take time, perhaps up to three months or a little more. Assuming that everything is clear in that direction we will have a spot for him.

It was nice to hear from you, and I appreciate your calling this young man to my personal attention.

Sincerely,

SIGNED; *sup via ER*
